

Manual install of plug-in for CorelDRAW

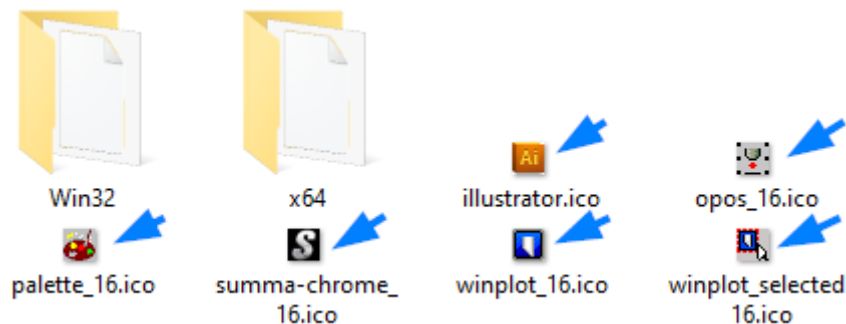

Introduction

This document explains how to manually install the plug-in to send a design from CorelDRAW to WinPlot.

Procedure

Follow the next steps:

- Download and Install “Summa Cutter Tools”
<https://www.summa.com/media/huzp2ja0/setupstct.exe>
- Close CorelDRAW
- Copy all the images (extension of the files is .ico):
from:
“C:\Program Files (x86)\Summa Cutter Tools\Corel\plugin”
to:
“C:\Program Files\Corel\CorelDRAW Graphics Suite 20xx\Draw\Plugins64”

- Copy the plug-in “CutterToolbar.cpg”:
from:
“C:\Program Files (x86)\Summa Cutter Tools\Corel\plugin\x64”
to:
“C:\Program Files\Corel\CorelDRAW Graphics Suite 20xx\Draw\Plugins64”

- Start CorelDRAW
